**Class will fill up!**

**Register Today!**  
**Please Register**  
**by March 2**

**\* Ask about special**  
**pricing for students in**  
**Extended Day program.**

The Science Club provides fun, interactive and educational hands-on activities that instill a clearer understanding of science and how it affects the world around us.

While moving through the curriculum, students are able to touch, see, hear, feel and taste what science is all about.

In each class, your child will make a project dealing with that week's subject.

Additional materials may be sent home to extend the fun and learning.

### **Additional Information..**

The Science club will focus on group work on models such as volcanoes, systems in the human body, and insect classification. Many of the projects will be constructed out of recycled materials, and will complement the units that students are studying.

Leo Carvajal is our Elementary Science Teacher, here at Su Escuela. He is a nature lover and is very excited to continue sharing his passion with students through the after school science club!
