

Class Dojo

SELA uses several different programs to help facilitate communication between parents and students, Class Dojo is one of those programs that we invite parents of students in Kindergarten & 1st Grade to use.

ClassDojo is an educational technology company. It connects primary school teachers, students and families through communication features, such as a feed for photos and videos from the school day and messaging that can be translated into more than 35 languages. It also enables teachers to note feedback on students' skills and creates a portfolio for students, so that families can be aware of school activities outside of meeting with teachers. Parent/guardian(s) will receive photo, videos, and updates about what students are learning and creating in the classroom weekly. Parents and teachers will be able to send private direct messages to each other to facilitate open lines of communication.
